

Εργοτάξιο σε Ανισόπεδο Κόμβο - Συμβολή παράπλευρου με κάθετη οδό δυο κατευθύνσεων (εργασίες αριστερά)
Work Site at Interchange - Vertical Road (two directions) with SR junction (site work left)

The diagram illustrates a road construction site with a single-lane road. The road is divided into a construction zone (shaded grey) and a transition zone (white). The construction zone is marked with a dashed line and a series of plastic cones (P-526) and flashing arrows (P-32) indicating the direction of traffic flow. The transition zone is marked with a solid line and a series of plastic cones (P-526) and flashing arrows (P-32) indicating the direction of traffic flow. The diagram also shows the placement of various traffic signs: P-526 (Plastic cones), P-32 (Flashing arrow), K-5a (Warning of narrow road), K-20 (Warning of narrow road), and K-20 (Warning of narrow road). The signs are placed in the transition zone, with a 50m distance indicated between the signs. The diagram is labeled with 'ZONH SYNAPMOFHS EISOΔΟΥ' (TRANSITION ENTRANCE ZONE) and 'ZONH PROEIDOPOLHS' (WARNING ZONE).
